

KONGKIM KK-604U

luxury roll-to-roll UV-DTF printer machine 豪华数码水晶标打印机
 4H heavy duty frame, double cycle water cooling temperature control
 4头重型机架, 1拖4双循环水冷UV固化系统

Technical Parameters	
Model	KK-604U
Maximun Print Size	600mm
Head Type	i3200-U1³ [White + Color + Varnish]
Resolution / Speed	6Pass mode 8 sqm/hr
	8Pass mode 6 sqm/hr
	12Pass mode 4 sqm/hr
Ink Type	UV DTF special UV ink
Ink System	Large ink-tank continuous / Ink mixing + circulation system / Lack of ink alarm
Application	Phone cases, acrylic, glass, wood, metal, plastic, ceramics, and almost any object ...
Personalization	AB film / bronzing / silvering free choice to enhance market competitiveness
Feeding & Take-Up System	Double power unbiased winding / Automatic peeling and lamination
Motor	Double Leadshine integrated servo motor
Heating System	Intelligent temperature control rubber roller heating system
Print Port	Gigabit Ethernet interface
RIP Software RIP	MainTop RIP 7.0, PhotoPRINT_22
Power Supply	AC 220V&110V ±10% Optional 50/60HZ
Power	Printing system: 1.0KW & UV curing system :1.3 KW
Operation Environment	Tem: 20°C-30°C, Humidity: 35%RH-65%RH
Size&Weight L*W*H	1900*815*1580mm / 225KG [Net] 2000*900*750mm / 260KG [Packing]

MACHINE APPLICATIONS \ 机器的应用
